## Salt Delivery Route Service

Tired of heavy lifting or busy schedules? Let us handle your salt delivery! We offer convenient salt delivery services customized to your water usage and equipment type. Our flexible delivery intervals of 28, 56, 84, or 112 days ensure you have the right amount of salt when you need it. If you're a seasonal customer, you can easily put your deliveries on hold while you're away. Rest assured, our reliable route drivers will take care of your salt delivery. However, please note that if we are unable to service your equipment during the scheduled delivery, a delivery fee will be charged. All clients on route service require a credit card on file.

### Special Salt Warranty

At Kinetico Water Systems of SWFL, our most important goal is to provide you with high quality water without equipment malfunctions. Our Service Department has encountered problems caused by certain types of salt caking and mushing up in salt tanks. Service calls of this nature are not covered under any warranty or lease program and can be quite costly to you. Kinetico Water Systems of SWFL continues to recommend Kinetico Brand Salt, sold at our Bonita Springs, Venice offices and several product stations located throughout Southwest Florida. This is the highest quality salt available for your water softener. We guarantee that our salt will not mush or cake in your brine tank! If you use our Kinetico Brand Salt exclusively and experience any problem with your unit due to salt will not charge you for the service call.
