Salt Delivery Route Service

Tired of heavy lifting or working around a busy schedule? Let us handle your salt delivery. We offer convenient salt delivery services customized to your water usage and equipment type. Our flexible delivery intervals of 28, 56, 84, or 112 days help ensure you have the right amount of salt when you need it. If you are a seasonal client, you can easily place your deliveries on hold while you are away. To complete service, equipment must be accessible and the area around the system must be safe and free of hazards. If your system is in a garage, access to the garage must be available at the time of service. If a gate code, garage code, or other access information is required and not provided, a trip charge will apply. However, please note that if we are unable to service your equipment during the scheduled delivery, a delivery fee will be charged. All clients on route service are **required** to have a credit card on file. Effective 8/1/2026, a \$10 administrative fee will apply if automatic billing is not set up with a payment method on file.

Special Salt Warranty

At Kinetico Water Systems of SWFL, our most important goal is to provide you with high quality water without equipment malfunctions. Our Service Department has encountered problems caused by certain types of salt caking and mushing up in salt tanks. Service calls of this nature are not covered under any warranty or lease program and can be quite costly to you. Kinetico Water Systems of SWFL continues to recommend Kinetico Brand Salt, sold at our Bonita Springs, Venice offices and several product stations located throughout Southwest Florida. This is the highest quality salt available for your water softener. We guarantee that our salt will not mush or cake in your brine tank! If you use our Kinetico Brand Salt exclusively and experience any problem with your unit due to salt will not charge you for the service call.
